HELLO!

I'm a UX designer with 9 years experience, 5 patents and an wide set of skills. With a user-centric focus, I've honed my expertise in visual design, production, wireframing, user flows, prototyping and testing to delight end users and create memorable experiences.

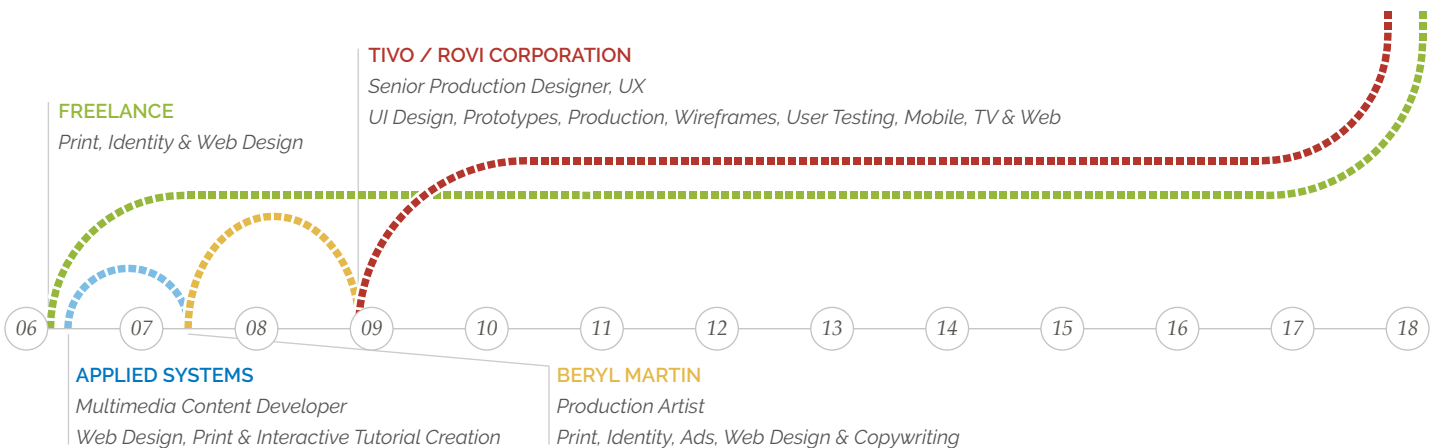

I have proven myself to be innovative, free-thinking and dependable. I work well with fellow designers, developers and product managers. I enjoy solving problems and taking on new responsibilities.
